

WILDERNESS ROAD MUZZLE-LOADERS

Invite you to their range in Wythe County, Virginia.

The 2010 Fall Grocery Shoot will be held on September 11 & 12, 2010.

The shoot will be for front-loading muzzle-loading firearms only; no in-line actions. Shooting will be off-hand (standing) position. The projectile will be a patched round ball (slug-type bullets may be used in the Civil War Musket Shoot). The gun sights will be open metallic – no peeps, shaders, or hoods. Smooth-bore guns will follow NMLRA rules. Pistols – one hand hold – cap and ball revolvers can compete in this class. Our shooting bench is covered (you can shoot in the rain) so we strongly recommend hearing protection.

We will have plenty of groceries for the best shooters of the weekend. We will have several open-class matches shooting for score @ 25, 50, 75, & 100 yds. We will have Men's, Women's, and Junior's (under 16) aggregate matches - combining the best scores at ranges of 25, 50, 75, and 100 yds. We will also have pistol, smooth-bore, Civil War Musket, and primitive novelty (\$) matches. Hawk and knife throwing (\$) will also be available. (\$) = money match.
